# Todo list for puzzle game:

- Photo gallery of exhibits. After the user had selected a photo, the game engine:
  - loads the photo,
  - creates the pieces of the puzzle from the photo,
  - mixes the pieces
- Puzzle game level (Easy, Medium, Difficult, Very Difficult) depending of the number of pieces.

# Convert html 2 image

- Firefox extension with command line usage
  - <http://pearlcrescent.com/products/pagesaver/>
  - Basic
  - Pro which costs 15\$ and supports extra command line flags
- html2image command line tool
  - <http://www.guangmingsoft.net/htmlsnapshot/html2image.htm>
  - \$299.95 for Single Server License
  - Same functionality with pagesaver firefox extension

# Convert html 2 image

- ImageMagick, a collection of tools and libraries for image manipulation
